

Complete Pro and You together

The many logistics of managing the Rx process causes...

- Delays in starting treatment
- Disruptions in treatment plan
- Frustration with the process

There's got to be a way to make this process smoother for patients

Welcome to Complete Pro

Complete Patient Support Programs logo

Together, we can smooth the Prescription Process

for your patients

An easy-to-access tool

That smooths the Rx Process

to help patients get started on their prescribed treatment...

quickly!

Complete Pro gives you flexibility

to choose the features...

...that work best for your patients.

Proactively avoiding delays and interruptions

In your patients' treatment.

With Complete Pro, you can:

Verify patient benefits and OOP costs

...through the benefits verification feature.

Easily enroll your patients into Complete...

and, if needed, switch patients to other AbbVie medications.

Complete and send prior authorization forms.

Get alerts prior to patient's PA expiring.

Send Rx to patient's chosen specialty pharmacy

See where your patients are in the prescription process.

AbbVie Patient Access Support applications are also available through Complete Pro.

Patient Access Support assesses eligibility for financial assistance programs at AbbVie

And determines the **one** that best fits your patient.

Complete Pro offers transparency throughout the process,

Such as approvals and shipment information.

Complete Pro

easy-to-access

flexible

All designed to help your patients

start and stay on track

with their treatment
